

EXHIBITORS' LIST : FOYER 1

STAND 1

IFC Certification
+44(0)1844 275500
www.ifcgroup.com

International Fire Consultants Ltd, fire engineering specialists working internationally on fire strategies and the detailed specification and design within the built environment. IFC clients encompass housing, commercial, retail, transport infrastructure including tunnels and car parks. IFC Certification delivers UKAS accredited third party product and installer certification in the UK, Europe and Middle East markets to British, European and American standards.

STAND 2

AD Sprinklers
+44(0)161 336 0001
www.adsprinklers.co.uk

AD Sprinkler Protection Ltd is an LPCB company. We design, supply, install and service fire sprinkler systems throughout the UK. Our Vision statement "Working together as a motivated team to grow and excel through training and constant development in order to provide a quality service unrivalled by others". We offer a transparent, jargon free service, where we would like to become part of your team.

STAND 3

ERICO International
+44(0)118 958 8386
www.erico.com

ERICO is a leading global manufacturer and marketer of superior engineered electrical and fastening products for niche electrical, mechanical and concrete applications. ERICO products are sold under market-leading brands like: CADDY – Fixing, fastening and support products for use in electrical installation, datacom, telecom, fire protection, seismic and HVAC applications.

STAND 4

General Air Products
+1(0)610 5248950
www.generalairproducts.com

General Air Products is the leading manufacturer of air compressors specifically designed for fire sprinkler systems. Through innovative engineering and without sacrifice of quality industrial components we continually deliver a five star level of excellence. We want you to expect nothing short of the best possible experience when you purchase our products. We take pride in supporting the fire industry and in providing quality equipment to the fire sprinkler contractor.

STAND 5

ANPI
+32(0)1047 5211
www.anpi.eu

ANPI - in control of your fire and theft risks. For more than 50 years, ANPI, a Belgian organisation, has provided testing, certification, inspection and audits covering fire, intrusion prevention and electrical safety. Nowadays, industry associations, fire brigades, test houses and consumers are statutory members of ANPI and ANPI takes a leading part in drafting regulation and standards. Located in Brussels, *the Gate way to Europe*, ANPI provides its customers with a unique access to the European countries.

STAND 6

IPS Flow Systems
+44(0)191 521 3111
www.ips-blazemaster.com

IPS Flowsystems are the UK specialist supplier of Thermoplastic Fire Sprinkler Piping solutions. The range includes the Blazemaster CPVC system and Agru FM approved PE 100 for buried mains. We are the only supplier providing a third party approved installer training programme, specifically for CPVC Fire Sprinkler Systems - considered vital by both Specifiers and Approvals bodies. No other company can offer the technical and logistical support required for successful contract completion.

STAND 7

Grundfos Pumps
+44 (0)1525 850000
www.grundfos.co.uk

Grundfos Pumps have become a highly respected name for providing bespoke UK designed and built fire pump solutions. We can deliver a wide range of packaged and containerised systems that meet with international standards as well as local LPCB certification and have developed a bespoke range of domestic and residential FireSAFE products. This makes Grundfos Pumps the ideal partner to work with to deliver a complete 'one stop shop' for fire pump solutions.

STAND 8

Henderson Insurance
+44 (0)113 393 6329
www.hibl.co.uk

Henderson Insurance provides a range of insurance services for fire and security risks. We are a member of the Association of Fire and Security Insurers (AFSI) and the Association of Fire Underwriters (AFU).

Room FSI : 1

API Vipond
+44(0)1355 237588
www.vipondfire.co.uk

Thermocable Flexible Elements Ltd produce a diverse range of linear heat detection and water leak detection products. These sit alongside a variety of linear detection and security products, all inspired by our world renowned flexible heating cables. On show at Fire Sprinkler International 2014 are the ProMinder family of products providing Intelligent Monitoring for trace heating systems guaranteeing protection against frost and ice build up.

EXHIBITORS' LIST : FOYER 2

Stand 9

Xact Training
+44 (0)1386 277980
www.xact.org.uk

Xact is an approved assessment centre for awarding body Industry qualifications. Xact offers both open and in-house courses in BS 9251 : 2005; Canute FHC Design Software; BS EN 12845 and checking sprinkler systems for building control, fire service and fire risk assessors. Courses are approved by BASA, FIRAS third party accreditation scheme and awarding bodies for national and specialised qualifications.

**APPLICATIONS
ENGINEERING LTD**

Stand 10

Applications Engineering
+44 (0)1825 764737
www.appeng.co.uk

Applications Engineering specialises in the supply of control and instrumentation products, including pressure switches, sensors and pressure transducers, flow switches and flow sensors, level switches and level sensors, and temperature switches and temperature sensors. We also offer the innovative JetCleaner hose and pipe cleaning system. We stock a range of products from many of the best-known manufacturers, including several for whom we are the sole representatives.

fivalco

Stand 11

Fivalco
+86 10 67861846/7
www.fivalcovalves.com

Fivalco is in its 25th year of manufacturing supplier of quality fire protection valves for our discerning customers .The company is a U.S brand with operations in Korea,Hongkong and China. We also manufacture valves under OEM contracts for the best known brands in our industry."The quality goes in before our name goes on ".

Stand 12

Viking
+352 58 37371
www.viking-emea.com

Viking is a leading provider of fire protection components, with a complete range for commercial, industrial, storage and residential applications. We combine technically superior products from industry-leading brands with our technical expertise and logistic capabilities. And we encourage the use of fire protection components in order to protect lives, businesses and properties. Viking – your single resource for the largest selection of fixed, automatic fire protection products and services.

P&ExS

Stand 14

P&ExS
+44 (0)1795 530111
www.firesprinklerevents.com

P&ExS is an independently owned organisation offering specialist marketing services to the sprinkler industry and the wider fire market.

Stand 15

Balmoral Tanks
+44 (0)208 665 4100
www.balmoralfiretanks.com

Balmoral Tanks offers project-specific choices of LPCB & FM Global-approved hot press moulded GRP sectional, hot press steel sectional, steel and aluminium bolted cylindrical tanks, Balmoral will guide you through the firefighting sprinkler tank specification and ordering process and carry out full installation works if desired.

Stand 16

Beck – Pipe Joint Engineering
+45 4371 8668
www.beck.as

Beck Engineering offers a range of the latest automatic fire sprinkler products for pipe joining systems. Including the FM approved PJE-PIPES easy installing sch.5 grooved pipes and the Lightwall grooved pipes all of which offer fast, easy and safe installation of automatic fire sprinklers.

Stand 17

Potter Electric
+1(0)886 572 3005
www.pottersignal.com
GOLD SPONSOR

Potter Electric Signal Company, established in 1898, produces a wide array of products including fire sprinkler monitoring systems, corrosion monitoring, and MIC testing. At Potter, we supply our customers with products that provide real world solutions for their unique needs and strive to provide them unequalled service and technical support.

Rapidrop Global Ltd

Stand 18

Rapidrop
+44 (0)1733 847510
www.rapidrop.com
PLATINUM SPONSOR

Rapidrop is a UK based company with operations throughout the world serving the needs of the fire sprinkler industry allowing us to supply the right product at the most competitive price. Rapidrop prides itself on offering high value for money Valves and Pipeline accessories from stock. Our widely accredited range of UK manufactured sprinklers, flexibles, valves and sprinkler system accessories are available from stock for immediate delivery or urgent export shipment to your specific requirements. We have a Quality Assurance System certificated by LPCB to ISO 9001 : 2008.

Stand 19

FM Approvals
+33 (0)450 655043
www.fmapprovals.com
GALA DINNER SPONSOR

FM Approvals is an accredited, third-party testing and certification organisation and is a Notified Body and Technical Assessment Body (EOTA) designated under the Construction Products Regulation. Offering global services to manufacturers of property loss prevention products and services, the FM APPROVED mark tells customers your product conforms to the highest property protection standards in the industry.

Stand 20

JOB GmbH
+49(0)4102 211421
www.job-bulbs.com

JOB GmbH was established in 1971 by Dipl.-Ing. Eduard J. Job. Since their introduction JOB THERMO BULBS have become the standard heat responsive glass bulbs for the sprinkler industry. Due to high quality and reliability up to 800 Million JOB THERMO BULBS are now installed worldwide. The unique and patent bone shape design of JOB THERMO BULBS combined with the special F-liquid are decisive factors for the outstanding thermal response and the superior strength of the glass bulbs.

Stand 21

VSH Fittings B.V.
+31(0)35 688 4211
www.vsh-fittings.com

VSH Fittings B.V. activities cover the development, production and sales of water, heating and gas piping systems. VSH offers you a complete range of brass compression, stainless and galvanized steel press fittings. By obtaining the VdS approval in the beginning of 2008 for both galvanized and stainless steel, this was the start of the XPress system evolving into XPress Sprinkler. XPress Sprinkler has been tested and certified in accordance with the international guidelines such as LPCB, VdS, FM, UL.

Stand 22

VdS Schadenverhütung GmbH
+49 (0) 221 7766 6417
www.vds.de

VdS is Europe's No 1 for safety and security. With more than 100 years of experience, VdS is the partner of choice for the testing of on-site fire protection systems and for the certification of products, service providers and management systems. The institute also sets international standards with the publication of a comprehensive set of guidelines for fire prevention and safety equipment. The VdS quality seal is the top buying criteria for Europe's safety and security professionals.

EXHIBITORS' LIST : FOYER 3

Stand 23

VICTAULIC
+32(0) 93 81 15 48
www.victaulic.com
GOLD SPONSOR

Since 1919, **Victaulic** has been the world's leading producer of grooved mechanical couplings and pipe-joining systems. In 1952, Victaulic released the first approved coupling for fire protection services. Today, Victaulic technology includes a complete offering of sprinklers, couplings, fittings, valves, accessories and tools to meet the needs of any fire protection application. Some of Victaulic's latest innovations are the FireLock NXTTM devices and the Installation-Ready coupling Style 009N.

Fireflex is a pioneer in integrated fire protection systems and Siron is the European Distributor for the Fireflex ICAF system. FireFlex introduces the most advanced engineered fixed system for compressed air foam. FireFlex's ICAF system demonstrated superior firefighting capability while reducing water supply requirements by 4 to 1 in comparison to conventional foam systems providing solutions where water supply or drainage is insufficient.

Siron is the European distributor for the **Dropmaster**. The Dropmaster DM12 is a patented siphoning system for removing excess water and odor from fire sprinkler systems and process piping prior to repairs and change outs. The Dropmaster DM12 allows the fire sprinkler fitter to change sprinkler heads without using buckets and tarps, while reducing liability and increasing profits

Metraflex' Fireloop joint protects fire sprinkler systems during earthquakes and building movement. It takes less space and installs faster and easier. The Fireloop joint is UL listed and meets the requirements of NFPA 13. Extremely compact and requiring one hanger and two connections, it simplifies sprinkler system design and eliminates the need for multiple, convoluted joints or grooved couplings fabricated on site.

Salzgitte Mannesmann Stahlhandel GmbH, System VIROTEC produce and sale a wide range of components for fire sprinkler installation : sprinkler hose and fixture - sprinkler-T - adjustable drop nipple - Flexarm - shielding cap - grooved coupling, fitting. All products are tested and approved by VdS (Germany) and FM (USA)

The Fire Protection Association is the UK's national fire safety organisation. Established in 1946 we have become recognised as an independent and authoritative source of information and advice relating to all aspects of fire safety and loss prevention, including research, consultancy, training, publications, risk surveying and auditing.

Tyco Fire Protection Products is a leading manufacturer and distributor of fire suppression systems and components, offering one of the broadest lines of fire protection system equipment worldwide. Tyco will showcase its AquaMist systems; a range of versatile and highly efficient fire-fighting solutions featuring unique watermist technology.

VACTEC is an innovative, start-up company, which develops, manufactures and sells the Vactec® vacuum sprinkler system. This fire protection system uses vacuum as energy in the sprinkler network. Vacuum is clean, decreases operational costs and enables long-term system reliability. Created by Maurice Kadoche, VACTEC CEO and R&D Director, vacuum technology already recorded significant achievements. VACTEC is now running Certification and Marketing development.

M.E.P.CAD, Inc. is a software development company staffed by talented fire protection professionals. Our powerful, stand-alone CAD systems provide productive and patented features in an intuitive, elegant environment. With tools for BS9251 & EN12845. Hydraulic Calculations, Stocklisting, and built-in interference checking, AutoSPRINK is the standard for fire sprinkler design in today's 3D BIM environment.

Globe Fire Sprinkler Corporation is an ISO-9001 certified manufacturer of fire sprinklers, valves, and accessories. Globe offers a complete range of USA-produced products for use in residential, commercial, and storage applications. First produced in Cincinnati, Ohio in 1914, we are proud to celebrate 100 years of the continuous production of Globe Sprinklers and Valves. We invite you to visit our stand to see many of Globe's contributions from the past century.

LPS1048 LPCB requirements for the approval of automatic sprinkler system contactors; capable of designing, installing, commissioning, servicing and ensuring that sprinkler systems are appropriate for the occupancy and/or hazard class of the premises in which they are installed, and will operate reliably in the event of a fire.

The Reliable Fire Sprinkler company is one of the world's largest producers of automatic fire sprinklers and sprinkler system control equipment. Manufacturing takes place in South Carolina, USA, with the European market being serviced through the International head office in the UK. The product range includes fire sprinklers, alarm, dry, deluge and preaction valves, as well as a comprehensive range of system components.
